🦷 CLINICAL PRACTICE OPERATING SYSTEM • EDITION 2026-2027

Dental Practice Made Fast, Simple & Stress-Free.

Designed specifically for busy doctors and non-technical clinic staff. Issue digital prescriptions in under 30 seconds, automate follow-up visits with 1-click rewrites, eliminate reception chaos, and manage a 100% transparent patient financial ledger.

< 30s	1 Click	৳0 Math	100%
BANGLA RX CREATION	FOLLOW-UP REWRITE	DOCTOR FEE AUTO-HANDOFF	WHOLE-BDT LEDGER

🩺 For the Busy Doctor

Interactive FDI tooth odontogram, 1-click Bangla dosage presets, and instant visit fee selection. No typing essays.

🛎️ For Reception & Staff

Smart schedule by chair minutes, instant walk-in lounge check-in, and automatic preloaded billing from doctor's Rx.

💰 Complete Payment Ledger

Real-time running balances, debit & credit timelines, payment receipts (Cash/bKash/Card), and instant dues settlement.

🔒 Private Chamber Security

Chamber isolation privacy mode ensures your patient records and earnings breakdown are 100% confidential.

ORIS EMR • Non-Tech Doctor & Clinic Onboarding Guide **Works on Any Device • iPad, Laptop, PC, Phone • No Installation Needed**

The Effortless 4-Step Patient Journey

Designed from the ground up to eliminate reception confusion, phone calls to the doctor's chamber, and manual price calculations.

1

Patient Arrival

Reception scans card or registers patient. Direct walk-in check-in syncs patient to waiting lounge TV queue.

2

Doctor Exam & Rx

Doctor clicks teeth on visual chart, adds Bangla medicines in seconds, and selects **Amount to be Charged** (e.g. ৳500 / ৳1,000 / ৳0).

3

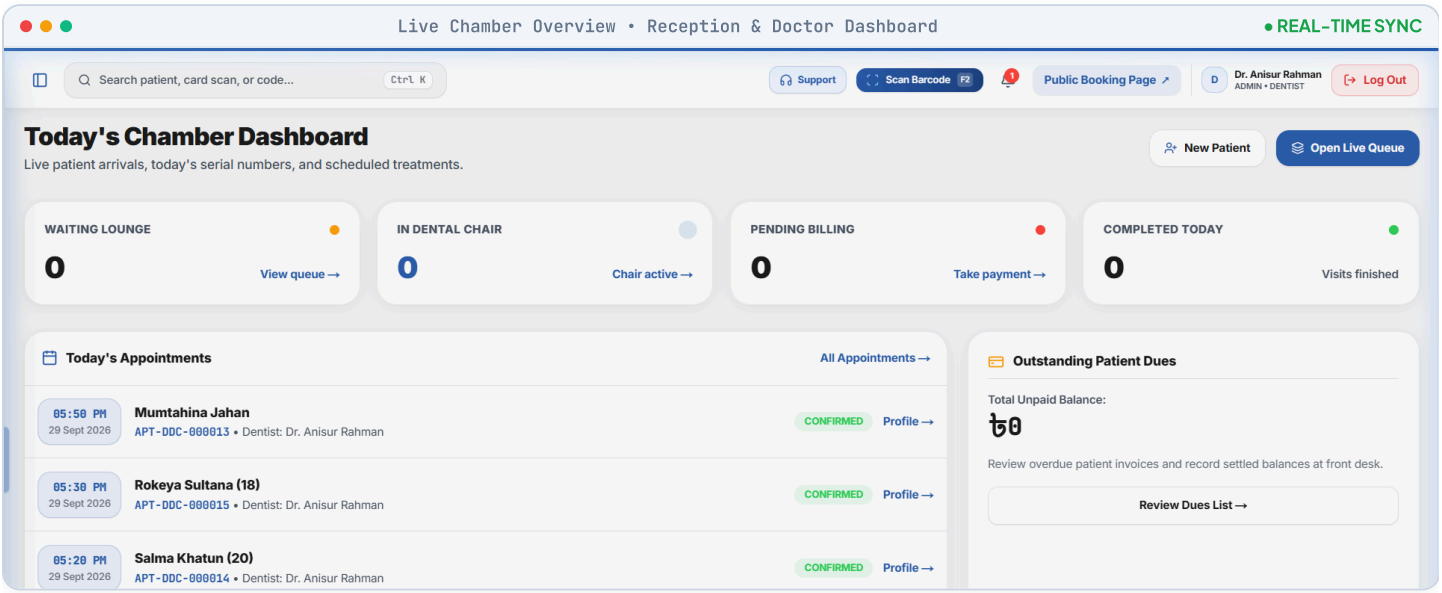

Instant Checkout

Reception opens billing — doctor's fee is **already loaded**. Collect via Cash, bKash, or Card and print money receipt in 1 click.

4

Follow-up Rewrite

Returning patient? Doctor opens Rx and past complaints, teeth, and medicines **pre-fill automatically**. Modify in 10 seconds!

30-Second Prescription

Preset Bangla advice, common dental generics, and FDI tooth picker. You finish writing before the patient leaves the chair.

Zero Price Arguments

No rigid catalog procedure prices! Doctor sets the consultation/procedure fee right from the prescription canvas.

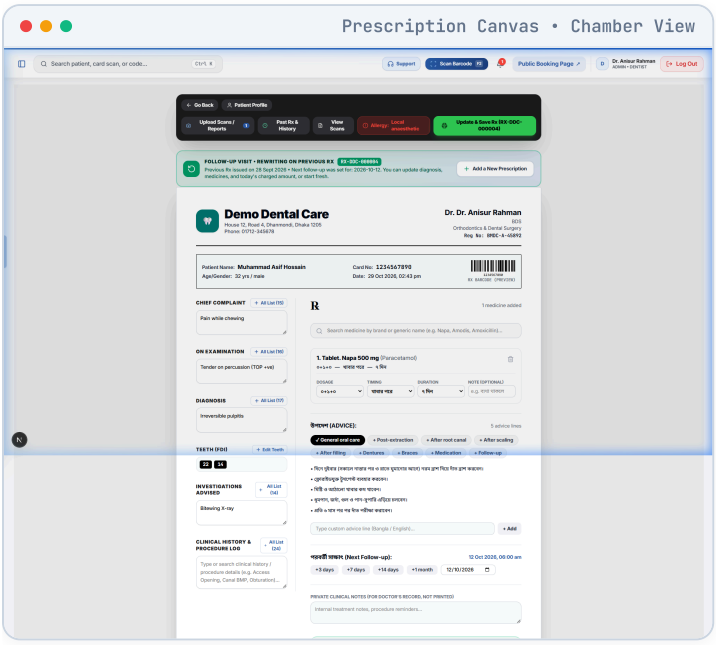

Zero Revenue Leakage

Every BDT billed is attributed to the attending doctor, tracked in the patient ledger, with instant dues alert at reception.

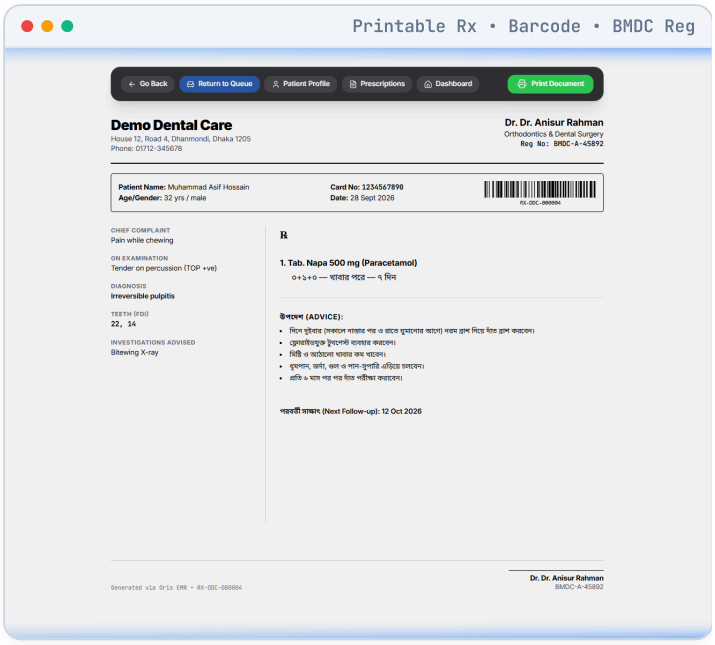

Digital Prescriptions in 30 Seconds

Visual FDI tooth chart • 1-click Bangla dosage presets • Chairside visit fee selection • 1-click follow-up rewrite mode.

🖥️ Chairside Prescription Builder (Follow-Up Rewrite & Fee Presets)

📄 Official Printed Bangla Prescription (A4 / Thermal Ready)

1-CLICK **Visual Tooth Chart & Bangla Advice**

Select tooth numbers (11 to 48) on interactive FDI chart. One click sets dosage (০+১+০, খাবারের পরে, ৭ দিন) and dental advice (কুসুম গরম পানি, শক্ত খাবার এড়ানো).

🔁 Follow-Up Visit Rewrite Mode

Returning patient? An amber banner shows previous Rx. Past diagnosis, tooth codes, and medicines **prefill automatically**. Modify in seconds, or click **"+ Add a New Prescription"** to start fresh!

🏷️ Amount to be Charged (Chairside Fee)

Select visit fee directly on canvas: ৳**0 (Routine / Free Follow-up)**, ৳**500**, ৳**1,000**, ৳**1,500**, ৳**2,000**, ৳**3,000**, ৳**5,000** or custom amount. Reception billing immediately receives this exact amount!

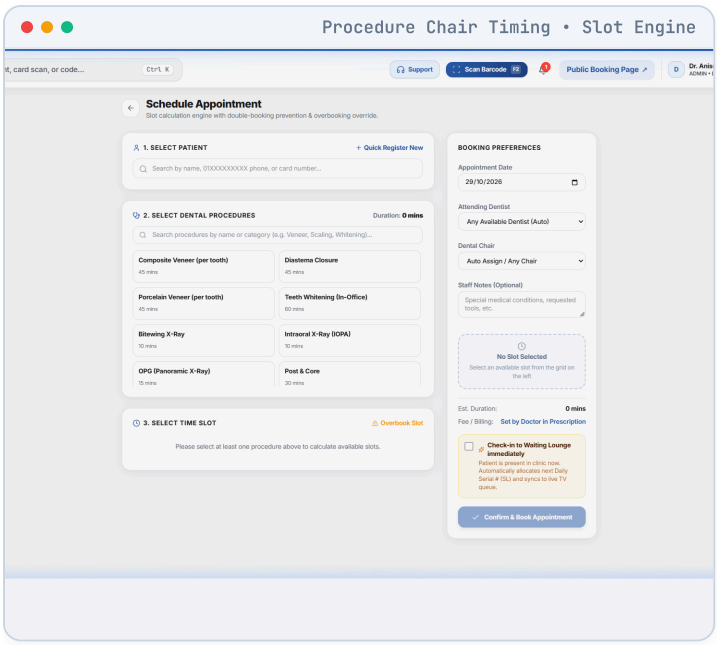

🛡️ Allergy & Medical History Warnings

Real-time prominent red banners alert you to local anaesthetic allergies, diabetes, hypertension, or heart disease right above the Rx canvas before you prescribe.

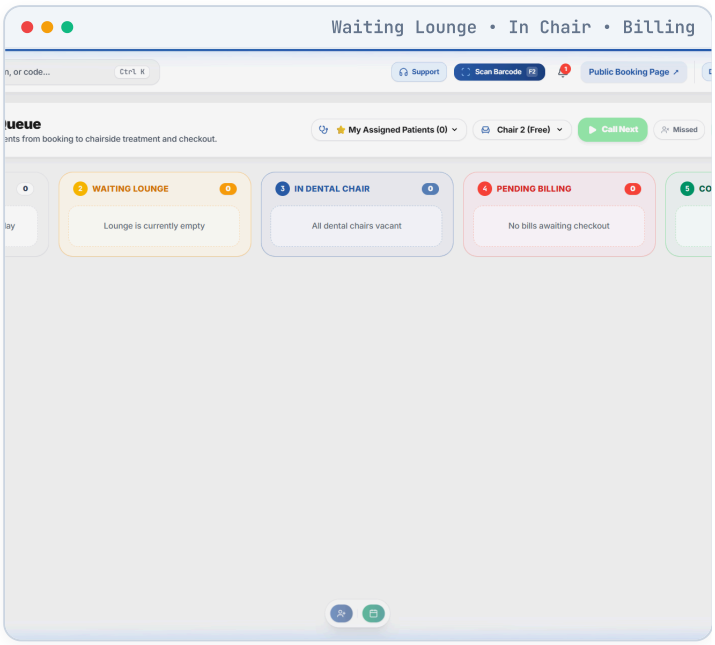

Front-Desk: Zero Overlaps & Live Lounge TV

Calculate appointment slots by chair minutes, check in walk-ins with 1 click, and keep your waiting lounge calm with real-time TV displays.

🗓️ Smart Appointment Slot Reservation

📺 Live 5-Stage Chamber Queue Kanban

⏱️ Chair Duration Allocation

Procedures specify clinical duration (e.g., Scaling 30m, Root Canal 45m). Our engine automatically detects free doctor windows and prevents double-bookings.

🚶 1-Click Walk-In Check-In

Patient standing at desk? Check **"Check-in to Waiting Lounge immediately"**. Allocates the next Daily Serial # (SL) instantly and syncs to live TV queue.

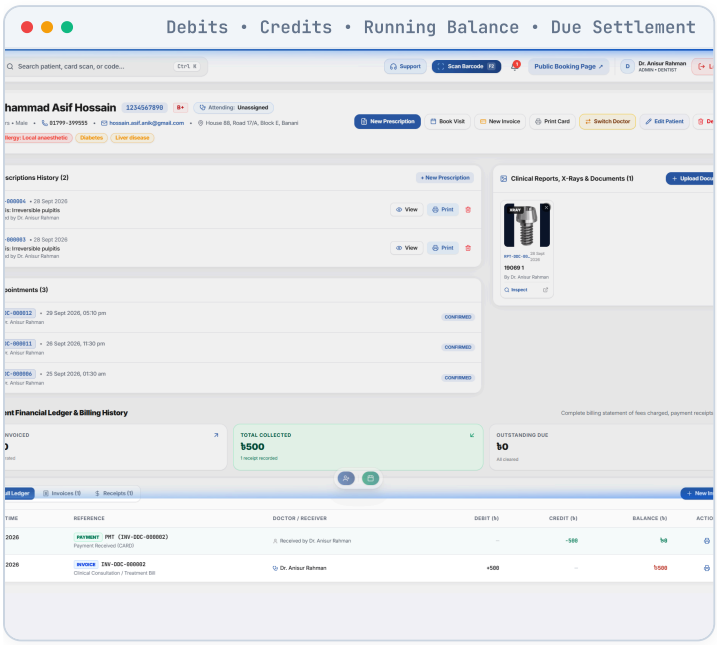

📺 Waiting Room TV Display

Display live serial calls on a standard smart TV in your waiting lounge. Patients sit comfortably knowing exactly who is in the chair and who is next.

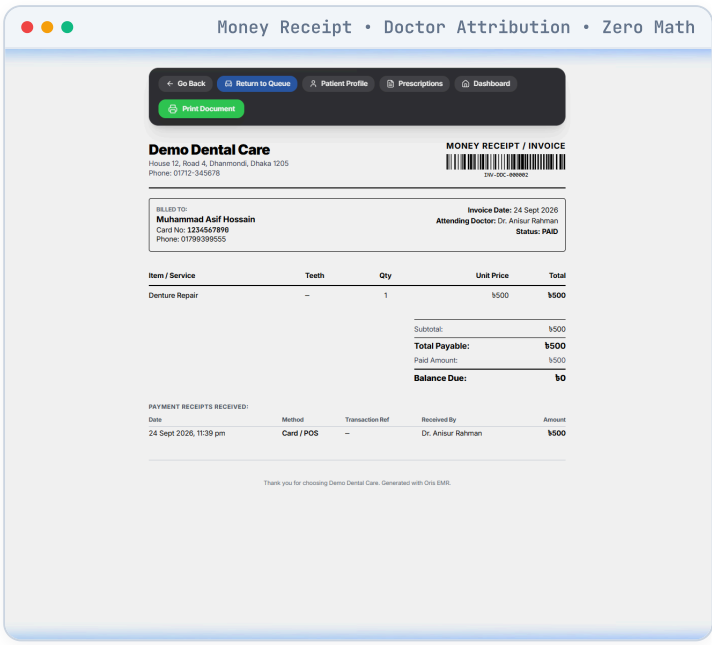

Transparent Billing & Patient Payment Ledger

Doctor sets fee in Rx • Reception collects payment in 1 click • Complete chronological ledger with running balance under every patient profile.

Patient Profile & Financial Payment Ledger

Itemized Money Receipt & A4/Thermal Invoice

Doctor-Prescribed Fee Auto-Handoff

Reception never has to guess or interrupt the doctor asking *"How much should I charge?"*. The exact amount chosen in the prescription automatically populates the invoice line item.

Multi-Method Payment Receipts

Take payments via **Cash, bKash, Nagad, Card/POS**, or Bank Transfer. Prints professional A4 invoices or thermal money receipts in 1 click.

Complete Ledger Statement

Under every patient's profile, view every billed charge (Debit), every payment received (Credit), transaction references, attending doctor, receiving staff, and net running balance.

Instant Outstanding Dues Settlement

If a patient has an unpaid balance from a previous sitting, an alert badge appears with an instant **"Settle Due →"** button. Stop revenue leakage permanently.

Doctor Privacy, Earnings & Easy Onboarding

Your chamber privacy is guaranteed. No complicated installations. Zero technical training required.

📊 How Oris EMR Compares to Traditional Methods

FEATURE	PAPER & HAND-WRITING	GENERIC HOSPITAL SOFTWARE	ORIS DENTAL EMR
Prescription Speed	Slow (hand-written, repetitive)	Clunky (5+ screens, slow dropdowns)	✓ < 30s with Bangla Presets
Follow-up Visits	Lost files, search paper piles	Must re-type everything again	✓ 1-Click Rx Rewrite & History
Visit Fee Setting	Verbally shouting to reception	Rigid price catalogs causing errors	✓ Chairside Presets (৳0 to ৳5k)
Patient Payment Ledger	Paper khata, untracked dues	Confusing accounting modules	✓ 100% Transparent Running Balance
Doctor Chamber Privacy	Anyone can read paper charts	All doctors see each other's data	✓ Isolated Mode (Strict Privacy)
Device Compatibility	Physical only	Requires expensive server/desktop	✓ iPad, Phone, Laptop, Any PC

🚀 Ready in 15 Minutes — Zero Technical Setup

STEP 1: Log In
Open in your web browser. No download, no local server, no IT technician required.

STEP 2: Add Doctors
Set doctor names, BMDC numbers, and chamber timings. Upload clinic logo in 2 minutes.

STEP 3: Start Seeing Patients
Write your first prescription immediately. Staff can master reception in under 10 minutes!
